41CL Order Form

This form is required to order a 41CL calculator circuit board. By submitting this request, you acknowledge that the 41CL circuit board that you receive may not function entirely according to published specifications. That is, there may be errata of which we are not currently aware. While we have made every effort to thoroughly test the circuitry and software, it is always possible that we have missed something.

Installing the 41CL circuit board requires that you disassemble your calculator. We are not responsible if you damage or ruin your calculator, or the 41CL circuit board, during the installation process. So be careful, and follow the instructions given in the 41CL Calculator Manual on the Systemyde website at <http://www.systemyde.com/pdf/sy41cl.pdf>. The 41CL circuit board is not returnable.

If you agree to the above caveats, please fill out the remainder of the form and return it to us via email. Once we receive this form we'll send you an invoice via PayPal (or email with a Paypal address) for the funds.

Shipping address (if your country uses a different ordering just fill it in as it should go on the shipping label):
